

Promotional Offer Terms and Conditions: 3 Months ½ Price with Visa Prezzy® Card

Promotional Information

Availability: This Promotional Offer - 3 Months ½ Price with Visa Prezzy® Card (“Offer”) is available for the VDSL, Fibre Pro, Fibre 100 and Fibre 200 products (“Products”). This is a residential internet service available to new customers. For VDSL, this is available to new customers in areas that are not Fibre ready. MyRepublic and/or Visa employees and their families are ineligible for this Offer.

Offer Period: The Offer is valid from 4 July 2019 until 31 July 2019 and is subject to change by MyRepublic without notice. The Offer is not valid in conjunction with any other offers.

Bundling requirements: MyRepublic does not require that you bundle this service with any other service.

Minimum service term: 12-month contract.

Prezzy® Card Terms and Conditions: A Visa Prezzy® Card, loaded with the value of \$100, will be sent to you (at the New Zealand delivery address specified by you during sign-up) after the first month’s invoice for your Eligible Plan has been paid in full. The Visa Prezzy® Card will need to be activated before it can be used. We will provide an activation code to your registered email address and/or mobile phone number to activate the card before it can be used. The Visa Prezzy® Card is not transferrable or redeemable for cash or account credit. Visa Prezzy® Card Terms & Conditions apply.

Minimum monthly charge: The minimum monthly charges are specified in the table below. You will incur additional charges for any value-added services, routers or calls which are not included in your plan.

Changing plans: You can change your plan during your contract term provided you move to a plan with the same or higher monthly plan fee. If you change your plan to a plan with a lower monthly fee during your contract term an ETF may apply, and any hardware repayments will remain the same.

Termination Billing Cycle: Customers may cancel their service at any time by contacting Customer Service. The cancellation of the service will take effect from the start of the next billing period.

Early Termination Fee (ETF): Customers on a 12-month contract will be required to pay an ETF of up to \$240 if the service is terminated during the minimum service term. The ETF will be pro-rated by the number of full months remaining in the minimum service term (equating to \$20 per month remaining).

Moving address: For information on the process when moving address see MyRepublic’s General Terms & Conditions.

Installation: You may require a technician appointment to have your service installed. You must obtain permission from the owner of the property (if this is not you) and be over the age of 18. Standard installation is included with all orders. There may be additional charges for internal wiring if required.

Equipment: You may use your own (“BYO”) modem router, purchase a MyRepublic modem router or have a modem router supplied as part of your plan. MyRepublic only provides “best efforts” technical support to BYO routers. To use the home phone service, you will need to provide your own compatible handset.

Connection fee: MyRepublic does not charge a service connection fee for standard connections for customers who are transferring a service or activating a new service from another ISP.

We may need to install or connect equipment at your premises in order to supply the services to you. Installation or connection may be carried out by us, our authorised contractors, and/or the wholesaler. We will arrange a time with you for installation or connection to take place. Unless stated otherwise, you will be responsible for paying any non-standard installation costs.

Any Installation Costs will be agreed with you before connection or installation commences.

Pricing:

Plan Name	12 Month Term

Data Allowance	Unlimited*

*Acceptable Use Policy applies.

Add-On Hardware

Information About Wi-Fi Router Pricing

The applicable charge to have a modem supplied plus postage and handling ("P+H") charges is specified in the table below. Customers who choose to purchase a MyRepublic modem router can opt to either pay for that modem router upfront, or pay it off by monthly repayment.

If a customer chooses a router as part of this Offer, the selected Wi-Fi router will be shipped to the address provided by the new customer (at the time of their subscription) once a fibre connection is established.

Ownership of any router we supply will remain with MyRepublic until the customer has either completed their 12-month payment plan (with no money owing) or paid for the router upfront, at which point ownership of the router will transfer to the customer.

Upfront payment for Wi-Fi routers: The upfront cost of your router plus P+H is invoiced as a one-off charge before service activation.

Monthly payment for Wi-Fi routers: The first monthly payment plus P+H is invoiced before service activation. Subsequent monthly payments will be invoiced in advance on your billing date. Customers

who terminate their service before the monthly payments are completed (ie before the modem router is fully paid off) will be required to pay the outstanding balance owing on that router. This amount will be payable in full on your next billing date and is in addition to any applicable Early Termination Fees.

Add-on Name	Router Upgrades
D-Link EXO 882 router	<p>Option 1: Upfront payment of \$240 One-off \$14.95 postage and handling fee</p> <p>Option 2: 12 Monthly payments of \$20 totalling \$240 One-off \$14.95 postage and handling fee.</p> <p>Hub+ is not included if you purchase one of our discounted router upgrades</p>
D-Link router Covr	<p>Option 1: Upfront payment of \$360 One-off \$14.95 postage and handling fee</p> <p>Option 2: 12 Monthly payments of \$30 totalling \$360 One-off \$14.95 postage and handling fee.</p> <p>Hub+ is not included if you purchase one of our discounted router upgrades</p>

Minimum monthly charge	\$10

*Acceptable Use Policy applies.

VDSL - Product Plan

Broadband line speed: This service comes with the VDSL network profile. The fastest nominal access line speed is up to 70Mbps download and 10Mbps upload on a wired connection. Your actual download and upload speeds will often be slower than the nominal access line speed and may vary due to a range of factors.

Any stated speeds represent the theoretical maximum speeds at which you are able to send or receive data over the Chorus network.

Unlike Fibre, copper speeds are heavily affected by distance, phone devices in the home & the quality of the copper to establish a physical speed. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

The actual speeds or latency you experience may vary depending on factors such as the equipment you use to access the Services, your device's capability, and the number of customers accessing the Services in your area. Other factors may influence the speeds or latency you can achieve to servers nationally and internationally. Our control of these speeds is limited to our own network. Connections to servers outside our network are on a "best effort" basis.

Limitations & qualifications: This service is available to new residential users, is a residential grade service & is only available in selected areas. There may be technical or commercial reasons that affect our ability to connect a service at your address.

The broadband and home phone service requires power to work and will not function in the event of a power failure or any other disruption to the power supply (including calls to '111' emergency services). This service is not suitable for customers who require an uninterrupted phone line. If you need to use this service with a medical or home alarm system, you should check with the provider of those services to confirm if they will work with MyRepublic's VDSL service.

Product: Fibre Pro, Fibre 100, Fibre 200

Fibre Pro broadband line speed: This service comes with the Fibre 950 network profile which provides speeds of up to 950Mbps download and 500Mbps upload on a wired connection. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

Fibre 100 broadband line speed: This service comes with the Fibre 100 network profile which provides speeds of up to 100Mbps download and 20Mbps upload on a wired connection. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

Fibre 200 broadband line speed: This service comes with the Fibre 200 network profile which provides speeds of up to 200Mbps download and 20Mbps upload on a wired connection. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

Your actual download and upload speeds will often be slower than the nominal access line speed and may vary due to a range of factors. Any stated speeds represent the theoretical maximum speeds at which you are able to send or receive data over your Local Fibre Company (LFC)'s network.

The actual speeds or latency you experience may vary depending on factors such as the equipment you use to access the Services, your device's capability, and the number of customers accessing the Services in your area. Other factors may influence the speeds or latency you can achieve to servers nationally and internationally. Our control of these speeds is limited to our own network. Connections to servers outside our network are on a "best effort" basis.

Limitations & qualifications: This service is available to new residential users, is a residential grade service & is only available in selected areas. There may be technical or commercial reasons that affect our ability to connect a service at your address.

The associated plans and routers are only available in the Chorus and Enable UFB areas. See www.crowninfrastructure.govt.nz for more information. A separate VDSL service is offered in areas that are not Fibre ready.

The broadband and home phone service requires power to work and will not function in the event of a power failure or any other disruption to the power supply (including calls to '111' emergency services).

This service is not suitable for customers who require an uninterrupted phone line. If you need to use the MyRepublic service with a medical or home alarm system, you should check with the provider of those services to confirm if they will work with MyRepublic's Fibre Pro service.

Other Information

Usage information: To access information about your Home Phone call usage, please log onto MyAccount visit myrepublic.net/nz/myaccount/login.

Customer service: For customer service and to access MyRepublic' s internal dispute resolution scheme, please call us on 0508 693 4273 or visit myrepublic.co.nz

Complaints and disputes: If you have a problem or complaint about your service, or to access information on MyRepublic's dispute resolution scheme, please call us on 0508 693 4273 or visit myrepublic.co.nz.

Billing: Your service is invoiced on the same date each month (e.g. 1st of every month). We bill you in advance for the minimum monthly charge and in arrears for calls not included in the minimum monthly charge. Your router is invoiced as a one-off charge before service activation. This is a summary only. For the full pricing, terms and conditions applicable to this service, please visit <https://myrepublic.net/nz/>

User Terms and Conditions: MyRepublic's [General Terms & Conditions](#) and [Residential Broadband Terms and Conditions](#) shall apply to this Offer.
