

## Offer Terms and Conditions: Save \$5 - Pay Monthly Plan

### Promotional Information

**Availability:** This Offer – Save \$5 - Pay Monthly (“Offer”) is available for the VDSL, Fibre Pro, Fibre 100 and Fibre 200 products (“Products”). This is a residential internet service available to new customers. For VDSL, this is available to new customers in areas that are not Fibre ready.

**Offer Period:** The Offer is valid from 1 August 2019 and is subject change or withdrawal by MyRepublic without notice. The Offer is not valid in conjunction with any other offers.

**Bundling requirements:** MyRepublic does not require that you bundle this service with any other service.

**Minimum service term:** 30 days.

**Minimum monthly charge:** The minimum monthly charges are specified in the table below. You will incur additional charges for any value-added services, routers or calls which are not included in your plan.

**Changing plans:** You can change your plan during your contract. Any hardware repayments will remain the same.

**Termination Billing Cycle:** Customers may cancel their service at any time by contacting Customer Service. The cancellation of the service will take effect from the start of the next billing period.

**Early Termination Fee (ETF):** No early termination fee applies to Pay Monthly plans.

**Moving address:** For information on the process when moving address see MyRepublic’s General Terms & Conditions.

**Installation:** You may require a technician appointment to have your service installed. You must obtain permission from the owner of the property (if this is not you) and be over the age of 18. Standard installation is included with all orders. There may be additional charges for internal wiring if required.

**Equipment** To use the home phone service, you will need to provide your own compatible handset. Information on Router Options is detailed in the Router section below.

**Connection fee:** MyRepublic does not charge a service connection fee for standard connections for customers who are transferring a service or activating a new service from another ISP.

We may need to install or connect equipment at your premises in order to supply the services to you. Installation or connection may be carried out by us, our authorised contractors, and/or the wholesaler. We will arrange a time with you for installation or connection to take place. Unless stated otherwise, you will be responsible for paying any non-standard installation costs.

Any Installation Costs will be agreed with you before connection or installation commences.

## Pricing:

Plan Name	Flexi plan – month to month
Fibre Pro	\$114.99 per month
VDSL or Fibre 100 Or Fibre 200	\$84.99 per month
Optional MyRepublic WiFi Hub+	One-off \$14.95 postage and handling fee. The upfront cost postage and handling fee is invoiced as a one-off charge before service activation
Data Allowance	Unlimited*

\*Acceptable Use Policy applies.

## Hardware

### Router Options

You may use your own (“No Router”) modem router, purchase a MyRepublic modem router or have a modem router rented as part of your plan. MyRepublic only provides “best efforts” technical support to third party routers. The No Router option is not eligible for additional discounts.

### Information About Wi-Fi Router Pricing

The applicable charge to have a modem supplied plus postage and handling (“P+H”) charges is specified in the table below. If you choose a router as part of this Offer, the selected Wi-Fi router will be delivered to the address provided (at the time of subscription) once a fibre connection ready-for-service date is established.

### Several payment options are available depending on the plan you choose:

- **Rental Routers:** Ownership of rental routers supplied, remains with MyRepublic for the duration of the customers subscription. At the time of termination of service, you are required to return the router to MyRepublic. If you are unable to do so or the router is returned in an Unusable condition, as defined by us, then a fee equivalent to the retail value of the router will be charged. Full Router Rental T&C's are available on [myrepublic.net/nz/legal](http://myrepublic.net/nz/legal)
- **Transfer of Ownership:** Customers who choose the rental router option may, part way through the existing plan, choose to purchase the same router. The Customer may do so by paying the full retail price of that router. The retail price to be paid will not take into account any amounts already paid to MyRepublic under the prior rental arrangements
- **Upfront payment for Wi-Fi router upgrades:** The upfront cost of your router plus postage and handling is invoiced as a one-off charge before service activation.
- **Monthly payment for rental routers:** postage and handling is invoiced before service activation. While you remain on this plan the monthly rental is included.
- **Monthly payment for Wi-Fi router upgrades:** The first monthly payment plus postage and handling is invoiced before service activation. Subsequent monthly payments will be invoiced in advance on your billing date. Customers who terminate their service before the monthly payments are completed (ie before the modem router is fully paid off) will be required to pay the outstanding balance owing on that router. This amount will be payable in full on your next billing date and is in addition to any applicable Early Termination Fees.

Add-on Name	Router Upgrades
MyRepublic Wi-Fi Hub+ modem router	Option 1: <ul style="list-style-type: none"> <li>· Monthly rental of \$0</li> <li>· One-off \$14.95 postage and handling fee</li> </ul> Option 2: <ul style="list-style-type: none"> <li>· Upfront payment of \$149.99</li> <li>· One-off \$14.95 postage and handling fee</li> </ul> Wi-Fi Hub+ is not included if you purchase one of our router upgrades
D-Link EXO 882 router	Upfront payment of \$299.99 One-off \$14.95 postage and handling fee
D-Link Covr router	Upfront payment of \$399.99 One-off \$14.95 postage and handling fee

Description	MyRepublic Gamer includes a Gamer Static IP address. This IP optimises routing to popular Game servers on the MyRepublic network when available.  MyRepublic Gamer includes Gamer Support and Gamer Perks.
Minimum monthly charge	\$10

\*Acceptable Use Policy applies.

### VDSL - Product Plan

**Broadband line speed:** This service comes with the VDSL 70Mbps network profile. The fastest nominal access line speed is up to 70Mbps download and 10Mbps upload on a wired connection. Your actual download and upload speeds will often be slower than the nominal access line speed and may vary due to a range of factors.

Any stated speeds represent the theoretical maximum speeds at which you are able to send or receive data over the Chorus network.

Unlike Fibre, copper speeds are heavily affected by distance, phone devices in the home & the quality of the copper to establish a physical speed. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

The actual speeds or latency you experience may vary depending on factors such as the equipment you use to access the Services, your device's capability, and the number of customers accessing the Services in your area. Other factors may influence the speeds or latency you can achieve to servers nationally and internationally. Our control of these speeds is limited to our own network. Connections to servers outside our network are on a "best effort" basis.

**Limitations & qualifications:** This service is available to new residential users, is a residential grade service & is only available in selected areas. There may be technical or commercial reasons that affect our ability to connect a service at your address.

The broadband and home phone service requires power to work and will not function in the event of a power failure or any other disruption to the power supply (including calls to '111' emergency services). This service is not suitable for customers who require an uninterrupted phone line. If you need to use this service with a medical or home alarm system, you should check with the provider of those services to confirm if they will work with MyRepublic's VDSL service.

## Product: Fibre Pro, Fibre 100, Fibre 200

**Fibre Pro broadband line speed:** This service comes with the Fibre 950Mbps network profile which provides speeds of up to 950Mbps download and 500Mbps upload on a wired connection. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

**Fibre 100 broadband line speed:** This service comes with the Fibre 100Mbps network profile which provides speeds of up to 100Mbps download and 20Mbps upload on a wired connection. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

**Fibre 200 broadband line speed:** This service comes with the Fibre 100Mbps network profile which provides speeds of up to 200Mbps download and 20Mbps upload on a wired connection. MyRepublic recommends ordering connection & wiring to maximise your lines performance if it is not already installed at the house.

Your actual download and upload speeds will often be slower than the nominal access line speed and may vary due to a range of factors. Any stated speeds represent the theoretical maximum speeds at which you are able to send or receive data over your Local Fibre Company (LFC)'s network.

The actual speeds or latency you experience may vary depending on factors such as the equipment you use to access the Services, your device's capability, and the number of customers accessing the Services in your area. Other factors may influence the speeds or latency you can achieve to servers nationally and internationally. Our control of these speeds is limited to our own network. Connections to servers outside our network are on a "best effort" basis.

**Limitations & qualifications:** This service is available to new residential users, is a residential grade service & is only available in selected areas. There may be technical or commercial reasons that affect our ability to connect a service at your address.

The associated plans and routers are only available in the Chorus and Enable UFB areas. See [www.crowninfrastructure.govt.nz](http://www.crowninfrastructure.govt.nz) for more information. A separate VDSL service is offered in areas that are not Fibre ready.

The broadband and home phone service requires power to work and will not function in the event of a power failure or any other disruption to the power supply (including calls to '111' emergency services). This service is not suitable for customers who require an uninterrupted phone line. If you need to use the MyRepublic service with a medical or home alarm system, you should check with the provider of those services to confirm if they will work with MyRepublic's Fibre Pro service.

## Other Information

**Usage information:** To access information about your Home Phone call usage, please log onto MyAccount visit [myrepublic.net/nz/myaccount/login](http://myrepublic.net/nz/myaccount/login).

**Customer service:** For customer service and to access MyRepublic' s internal dispute resolution scheme, please call us on 0508 693 4273 or visit [myrepublic.co.nz](http://myrepublic.co.nz)

**Complaints and disputes:** If you have a problem or complaint about your service, or to access information on MyRepublic's dispute resolution scheme, please call us on 0508 693 4273 or visit [myrepublic.co.nz](http://myrepublic.co.nz).

**Billing:** Your service is invoiced on the same date each month (e.g. 1st of every month). We bill you in advance for the minimum monthly charge and in arrears for calls not included in the minimum monthly charge. Your router is invoiced as a one-off charge before service activation. This is a summary only. For the full pricing, terms and conditions applicable to this service, please visit <https://myrepublic.net/nz/>

**User Terms and Conditions:** MyRepublic's [General Terms & Conditions](#) and [Residential Broadband Terms and Conditions](#) shall apply to this Offer.
