

PRODUCT SUMMARY

Toll Free

Information About the Service

Toll Free is an inbound calling solution for businesses. It is designed to allow businesses to receive calls at no charge to the caller.

The product has the following chargeable elements:

| Element | Description |
|--------------------|---|
| Number charge | A monthly charge applied for each Toll Free number a customer has, |
| Fixed call charge | A per minute charge for all Toll Free calls received from fixed lines/landlines in NZ |
| Mobile call charge | A per minute charge for all Toll Free calls received from mobile phones in NZ |

Number Availability

Both 0800 and 0508 Toll Free numbers are available to use. Customers may port in an existing Toll Free number/s, or new numbers can be assigned by MyRepublic.

Phone Service Provider

MyRepublic Toll Free can be utilised by customers who use another supplier to provide their outbound calling capability.

Limitations & qualifications

This service is available to business customers & may not be available in all areas or premises.

Toll Free calls must terminate on an NZ fixed line/geographic number (eg. 09 xxx, 07 xxx) however a customer may then route the calls to a mobile or other number.

Toll Free Terms & Conditions apply.
